Aurora & Marmo Collection

Solid Surface Material

Aurora Colours

Inspired by the breathtaking natural beauty of the Aurora Borealis or Northern Lights, the Aurora colour palette from the HIMACS Aurora & Marmo Collection evokes marble-like aesthetics with subtle and strong shades alongside delicate and detailed veining. The tones echo the fluidity of the sky and its natural wonders with semi-translucent effects that allow designers to experiment with a play on light, bringing natural beauty into their interior projects and clients' homes.

Combining practicality and aesthetics with the beauty of nature and the benefits of the latest generation solid surface HIMACS, this non-porous material can be thermoformed to create curvaceous designs and seamless surfaces that are simple to repair and keep clean. The collection is suitable for both residential and commercial projects, including hotels, office spaces, retail environments and more. Highlights of the new Aurora Colours include Calacatta Luna with its distinct veining and Aurora Frost with ethereal semi-translucent properties, resulting in an updated collection with something for every scheme and every design aesthetic.

Clean, crisp and seamless,
this unique finish is perfect for
contemporary spaces. Its delicate
veining and luxurious style resembles
the rare and exotic look and feel of
Italian calacatta marble.

When a distinctive marble effect is required, Aurora Calacatta Fiore is the perfect choice with its long, flowing veins and warm white colourway. Simple and luxurious, it works perfectly with matt kitchen cabinetry, painted Shaker styles or natural wood grains. A low maintenance and always repairable alternative to real marble, it creates the same high-end look and feel but is easier to care for, fabricate and fit with seamless joins that are hygienic.

NEW

Aurora Calacatta Ramo blends elegance and modernity, taking inspiration from the natural beauty of Calacatta marble and blending it with warm brown veins on a smooth white base. With a free-flowing organic feel, this colourway is ideal for large surface applications such as reception desks, island cladding, worksurfaces and bathroom walls and floors.

Aurora Almond is a warm and soothing shade, perfect for adding a sophisticated look and feel to contemporary and classic spaces. The beige and brown veined detailing adds tonal elements to a neutral backdrop, creating a refined aesthetic with a smooth, tactile feel. An ideal surface for kitchen islands and splashbacks.

NEW

Aurora Daymoon with its light grey base features gently layered veins and larger particles, evoking the look of the moon's surface during daylight. It looks striking teamed with dark wooden cabinetry and industrial schemes and helps create a spacious look and feel. It also has a stunning aesthetic effect when used as large slabs for office desks and meeting rooms, blending a professional look and feel with an on-trend design.
